Partnership Programs

Himawari offers 4 types of 'Forex partnership programs' for corporate clients as you can see below. Partnership programs will open doors and new sources of your profit. And we can provide our unique technologies and expertise that are totally beneficial for your company.

<p>API</p>	<p>This program offers a front-end platform as well as API and FIX connections to enable clients to optimally access the Forex market according to your trading preferences and needs. As an our partner, you present the spreads, commissions and all other trading terms to your clients.</p>  <p>The diagram illustrates the API (FIX4.4) program. It shows 'Customers' on the left interacting with 'Your Company' (represented by a server rack). 'Your Company' interacts with 'Market Making' (represented by a server rack with the Himawari Securities logo). 'Market Making' interacts with 'Banks' on the right. A 'REBATE' arrow points from Market Making to Your Company. A 'Providing Price' arrow points from Market Making to Your Company. A 'Trading' arrow points from Your Company to Market Making. Below the diagram is the text '< API(FIX4.4) >'.</p>
<p>White Label</p>	<p>This program is designed for organizations with their own client base and legal entities who want to start working in online forex trading under an existing brand. Our trading solutions enable you to harness and develop already existing customer trading relationships and extract greater returns from them whilst streamlining internal trading operations and rendering them as efficient as possible.</p>
<p>BackOffice System</p>	<p>This program provides comprehensive functionality, including multi-currency accounting, full workflow control, statements recording function, trading report service.</p> <ul style="list-style-type: none"> • Flexible integration for Front-Office connectivity • Accounting/Journalizing/Capital Adequacy Ratio Calculation(Caplex) • Position Management against cover counterparty • Cash Flow Check/Customer Statements Recording Function (FOREX_Manager) • Trading report service (Repolex)
<p>Consultative Support</p>	<p>This program provides technical and consultative support for your clients.</p> <ul style="list-style-type: none"> • Joint events (presentations, seminars, etc) • Marketing strategy consulting (vision & mission development, market segmentation, new financial product, service development, sales strategy, etc) • Diagnose Performance or Stability Concerns • Gather System and Server Statistics and Information • Solutions to common problems and alternative implementations
